

## PEDIATRIC OCCUPATIONAL THERAPY

Melissa M. Morano, MS, OTR, CEIM  
Pediatric Occupational Therapist  
mpowermethery@gmail.com  
(908)627-2829

Some signs your child  
may benefit from OT:

- Poor Pencil grip
- Difficulty opening containers or feeding self
- Illegible handwriting or dislike for fine motor tasks
- Difficulty sitting to pay attention
- Tripping/falling or keeping hands to ourselves
- Independence to dress and feed self
- Has a diagnosis of dyspraxia, developmental delay or autism

### About Me:

I am a local mom of 3 young children. I received my masters from Seton Hall in 2011. I have been practicing in the field of occupational therapy for over 10 years in various settings including schools, early intervention, homes, and outpatient clinics. I have worked with children of all abilities including those with fine motor delays, sensory processing concerns, motor impairments and autism. The children vary in age from newborn through and including teenagers. I love what I do and enjoy every day working with children to assist them to become more independent and successful!

*I am currently offering FREE occupational therapy SCREENINGS at your child's school. Please reach out to me with any questions. Sign the form below and return to your school's director to schedule your child's screening now.*

I, \_\_\_\_\_ give consent for my child, \_\_\_\_\_, age \_\_\_\_\_ to be seen by Melissa Morano, MSOTR, CEIM for an occupational therapy screener. Please contact me at (\_\_\_\_) \_\_\_\_-\_\_\_\_.
